is a proud supporter of

Sentebale is dedicated to supporting orphans and vulnerable children in the southern African kingdom of Lesotho.

There are an estimated 400,000 orphans in this small country in which nearly a third of the population is infected with HIV/AIDS.

Sentebale supports grass-roots based organisations to help the people of Lesotho deliver their own long-term solutions for their children in the areas of care, health and education.

To find out more about Sentebale (charity number 1113544) or to make a donation, please visit www.sentebale.org or call us on +44 (0)20 7024 5681.

HARRYS
OF
LONDON

INNOVATION

Hand polished, satin-finish calfskin.
Fully calfskin lined and featuring our
exclusive TECHNOGEL® footbed design.
Signature VIBRAM® rubber 'Windsurf' sole.

The **DOWNING**

EVOLUTION

On average, a man measures about 8,000 steps per day.

If he weighs approximately 170 pounds, the daily force that accumulates on his feet is 1,000 tons.

MANIFESTO

We believe in innovation and evolution in footwear. True innovation requires a healthy respect for tradition, classic design and exceptional quality.

COLOUR

Character building and a bold statement. Limited edition colour available each season.

GRIP

Inspired by technical designs for windsurfing shoes and adapted for the wet streets of London. This is function.

DESIGN

Research, design and sourcing the best new components and materials. Manufacturing with integrity and respect to the rich shoemaking traditions of Italy and England.

VIBRAM®

Respected for over 70 years as the industry leader in rubber performance outsole design. Tested for resistance, comfort and durability.

TECHNOGEL®

The unique footbed design inside is a plasticizer-free polyurethane gel with heat dispersion properties and the ability to distribute pressure from your body in all three dimensions.
